## “Asphalt Overlay Projects Progress”

Beginning April 28, traffic may be reduced to one lane from 14th Street to 18th Street on Norfolk Avenue as the first phase of work related to the Asphalt Overlay project continues. One lane of traffic will be closed while two lanes will remain open, with eastbound and westbound traffic being maintained in both directions for a few days. Flaggers will be directing traffic and lane openings and closures may be changed as progress is made.

Mark Dolechek, assistant engineer with the City of Norfolk, said that traffic on First Street south of Norfolk Avenue will also be shifted to the east side of the street as work continues on that project.

He added that residents may want to use an alternate route if possible and allow for extra travel time when driving in this area of town.

The timeline for the summer 2014 street projects are: April - Victory Road from Benjamin Avenue to Norfolk Avenue, concrete patching; May - First Street from Bluff Avenue to Madison Avenue, concrete patching; Late May through June - Norfolk Avenue from 14th Street to 18th Street, concrete patching; July through September - milling and asphalt paving on all three street projects.

If you have any questions or concerns, please contact Mark Dolechek, Assistant City Engineer at 402-844-2020.
